Re: Appl. # 09/776,162 - Method and System For Pricing a Commodity

Dear Nga:

Thank you for taking the time to meet with me yesterday. I was pleased to have the opportunity to discuss the important differences between the Grosh patent and the claimed invention, and I am glad we reached agreement that the claims overcame Grosh.

I will shortly file a formal amendment containing the arguments presented in the interview, and I look forward to hearing from you soon.

Sincerely,

  
John A. Galbreath
